2. To Interviewer Staff:

As part of the Office of Special Education Programs (OSEP) results-based accountability process, OSEP requires states to gather information from students' one-year post-high school exit as part of our State Performance Plan Indicator 14. This survey is intended for students who have left high school or a transition program, not those currently enrolled in a secondary education program.

If the student is completing the survey by phone, and unless otherwise prompted, please read each survey question as written and read ALL OF THE ANSWERS and mark ONE RESPONSE per question.

Additional information for interviewer staff is provided below and the text will appear italicized. Please do not read instructional information to students.

****This data collection is used to determine your former students' post-school performance. Every effort should be made to contact all students in your sample. This may require more than three attempts using multiple means of outreach including social media, family, friends, emergency contacts, email, home visits, etc.**

Record the date, time, number called, contact status, your initials, and any notes for each contact attempt. Example of how this could look as follows:

Student Name	Date	Time	Number Called	Status	Initials	Notes
